THE BANK	STATEM	ENT	

in general figures shows a gain of \$3,442,100 in total reserve and of \$3,187,700 in surplus reserve, but when it is carefully analyzed it will be seen that the gain is principally in gold, which for a purpose may have been withheld. The degrease in legal tenders of \$1,416,900 is thus offset. There is also a decrease in loans of \$1,291,400. The following are the totals for the past two weeks :-

April 3. April 10. Differences.

Loans. \$279,554,660 \$278,263,200 Dec. \$1,201,400 Specie. 9,665,600 \$14,524,500 Inc. 4,855,000 Legal tend's 49,856,890 48,419,900 Dec. 1,416,900 Deposits. 214,876,100 215,893,700 Inc. 1,017,600 Circulation. 21,438,500 21,509,800 Inc. 63,800 The following shows the relations between the total reserve and the total liabilities :-- .

KILLED WITH A BOTTLE.

INQUEST IN THE M'CARTHY CASE. At half-past ten o'clock yesterday morning Coroner Woltman held an inquest on the body of Michael McCarthy, who, it will be remembered, died from the effects of injuries received at the hands of Michael Cunningham.

John McDonaid, the first Witness, testified:-- I reside in Filty-eighth street, between Sixta and seventh avenues; am a stage driver; went into the liquor store at the corner of Sixth avenue and Forty-third street about four o'clock; there were three or four persons at the bar drunk; the deceased, Michael McCarthy, was one of them; be called for a drink; the barkeeper, was is now a prisoner, retused to give it to him; the deceased said, "I am damned if I don't bave it, any way;"

he then jumped across behind the oar and took hold of a bottle to "nelp himself;" Chaningham went toward him and said, "what are you dong behind the bar, get out as quick as you can;" the deceased went toward the prisoner, as I supposed, to strike him, when the prisoner look up a bottle and struck McCarthy with it on the lorened; it saw the deceased take a bowl and throw it at Choningham struck the first blow.

Micanel Herzborg, being sworn, said:—I reside at 754 hixth avenue; am a tailor; on Wednesday, March 31, about nail-pass. Toree P. M., saw the deceased with a stone mug, generally used for grinking not dranks, as it about to strike several men; took him away; some one asked McCarthy II he would have a drink; he abswered that if the barkeeper would give him a drink he would take it; the barkeeper relused to give him a drink; channingham had a bottle in his hand, with which he struck the deceased; the deceased, after being struck, picked up the bowl and struck the prisoner.

John H. Johnson, of No. 781 Sixth avenue, texti-

the prisoner.

John H. Johnson, of No. 781 Sixth avenue, testifield: "Lwest into McKenna & Duny's liquor store
on the evening of the afficay; saw the prisoner behind the bar; saw McCartny run at the prisoner
and take hold of him by the throat and choke him; and take hold of him by the throat and choke him; McCarthy was inrown to the floor by Cunningham, who said, "that settles it, I have done, you are mad when I thought you were only looling;" McCarthy seet very flithy language.

The jury rendered the following verdict:—We flow that the said Michael McCarthy came to his eath by infuries received by a dlow from a bottle in the hames of Michael Cunningham, on the flist day of March, 1875, at No. 754 Sixth avenue, and we further find that said Cunningham had no intention of Killing McCarthy.

The prisoner was admitted to bail in the sum of \$1,000.

KILLED BY A GUY ROPE.

An inquest was held yesterday at the Coroner's office in the case of Dennis McCartny, who was killed on the 2d inst. by making over a rope that was stretched across the sidewalk in Fifty-ninth street, near Eleventh avenue. The jury rendered the following verdict:- That the deceased came the following verdict:—That the deceased came to his death by internal hemorrage, the result of injuries received on the 2d day of April, 1875, in falling over the gay rope stretched over the slow-walk in Fifty-math street, on or about one nundred and 125 feet west of Eleventh avenue, and thereby causing an almost invisible obstruction; and we further find the contractor, Alouzo Roe, guilty of cuipable negligence in having permitted and having placed such gay rope without duly warning the travelling public by signal.

In view of this verdict Mr. Roe was summoned to appear at the Coroner's office to-morrow (Monday), and give that in the sum of \$2,500 to appear before the Grand Jery.

AFRICAN SLAVERY.

THE SULTAN OF ZANZIBAR TAKES A SLAVE FROM A BEITISH SHIP OF WAR. [From the London Globe, March 29.]

A strange comment on the inefficient working of the treaty against slavery entered into with the Sultan of Zanzibar has reached us. It appears that the man engaged as interpreter on poard Her Majesty's ship Taetis has positively been arrested on board that ship, and lorcibly withdrawn from his service under the British flag, by order of the Sultan of Zanzibar, the man being a slave of a class not affected by the treaty, and the captain of the Thotas had no power to prevent his return to shaver.

OPENING OF THE CANALS

EFFECT UPON TRADE-THE BEDUCTION OF TOLIS AND THE RESULT-COMPETITION AND ITS LESSON.

The State Canal Board has virtually decided

upon opening the canals to public traffic on May

This will be welcome news to our merchants who usually await this event with much anxiety and interest as ridding them for the time being from the onerous burden of railroad freights. This year, however, from what the writer could an event which in years gone by decided millions, This may be attributed to several causes. In the first place there never was a year in which the canals were so free of boats as this. The winter came on so sate that the closing of the canals was decided upon at a date when they really were yet able to keep open to tide water, and in this way all the boats got through except possibly a dozen or so which took the risk and were delayed from various reasons. There has not been one tithe of the number of the boats this year which last year were frozen in and unable to proceed to their destination. Thus one great cause of annoyance and risk was removed, and merchants have no anxiety on the score of cargoes which may have been damaged during the long winter by being frozen up; added to this, the cheapening of freights which has been inaugurated during the past winter has enabled New York merchants to receive grain during the whole season, without any regard to the canal being closed or not. This was something unheard of in past years. The transportation of grain by rail is a novelty, and ato and other lake ports the coming on of mild weather before being forwarded by canal. This was taken advantage of by SPECULATORS ON THE PRODUCE EXCHANGE

who in various ways made their profit thereby. This is now all changed and the price of grain can no more be governed by the canal. Indeed this very thing has seriously injured the canal trade. There is a competition against it which while the canal was open, large quantities of grain were brought on by rall, and merchants found their advantage in paying a higher freight so long as they received their goods more quickly than by the somewhat tedious process of the canals. The railroads on the other hand are said to have at last found out the wiscom of taking such freight

the somewhat tedious process of the causia. The rairroads on the other hand are said to have at last found out the wiscom of taking such freight at cheap rates. They saw that the limit in prices of grain would only allow a certain price for its reaght, and putting this in conjunction with the next that rolling stock bying mile rotted as quickly as tolling stock in use wore away, they first entered into a competition with the canalis. The influence of such a policy on the latter can hardly be overestimated. This is so true that last season was the first that boat owners ever sunk money. It losing money is to be in the luture the order of the day for them, it may be readily linagened that they will withdraw from the business, in which case thousands of people would be put out of work. When railroads nave a competitor no more, and the boats have rotted, then the freight's could again be extent Governor Flucia used this argument in his last Message, but it was claborated upon a great deal, a few days since, by ex-Governor Seymour, in his argument on the part of the Board and this is in reality the reason which underines the wave question of the canalis list in reality the reason which and derives the wave question of the reduction of the tolls on the canalis instead for reduce them one-third, which would make the freights a fraction over one cent a busiletion grain. This, it is conceded, is the only way to preserve the commerce to the canalis and make it worth the white of merchants to use the canalis instead of the railroads. Otherwise there will be a repetition of the scene of last summer—hundreds of boats lying up for want of business and charters, and consequently enforced dileness on the part of the many who are employed in running them. The season for these is short, only structhing a little over half they ear, and they must make nut time to exar a livelation of the scans. The state doing the part of the scans which was drawn of in the mile wing the part of the proposed reduction of the bonks. The frost took

tolls, which will be a material and decided benefit to that body. There is said to be a quantity of wheat and grain of various descriptions awaiting the opening at Buffalo and other ports in the West which ans been detained from the railroads; consequently, upon the proposed reduction this will come through just so soon as the opening takes pince. But prices here are not likely to be affected in the least thereby, and no speculation can be carried on in consistence.

The revived interest in the canals, brought on by the Message of Governor Thiden, is considered specially fortunate at this time, when had not some popular discussion set up on the question, the same state of affairs might have existed merely through general anathy. The reduction of the lolls is considered by many absolutely necessary to the continued prosperity of the canaes, but the subject would, perhaps, not have been oroached had at not been for this fittle squabble. Bout owners are, of course, proportionately jubilant at a promised revival of their trade and merchants are glad at a saving of money in their freight rates. In less than a month we shall have a fall lest of what this reduction in rates with accomplish and whether New York is in trade and increases are giad at a saving of money in their freight rates. In less than a month we shall have a full lest of what this reduction in rates will accomplish and whether New York is in danger, as many foodly think, of losing her com-mercial supremacy of this continent.

REDUCTION OF CANAL TOLLS.

The Board of Managers of the Produce Exchange held a special meeting yesterday, at which the following pention was ordered to be circulated for signatures :--

for signatures:—
To the Hononania, the Leusslature of the State of New York:—
We, the undersigned merchants of the city of New York members of the New York Produce exchange, and others engaged in the commerce of the country, we specially request your benerable body to authorize the reduction of canal toits, as recommended by the Usual Board at the meeting of March 17, 1870. The petition has aiready received about 200 sig-

TAMMANY HALL.

MEETING OF THE COMMITTEE ON ORGANIZATION A meeting of the Committee on Organization of

the Tammany Society was called for yesterday arternoon at four o'clock sharp. It was anticipated teat, being Saturday, this late hour would insure a large attendance. The floor of the Wigwam, which has been recently painted, was ac cordingly laid with passage ways of planks, sup-ported by bricks, and leading to the office of the secretary in the rear of the general assembly room. The gas was lighted at three o'clock, and the memoers of the committee filed in singly and by twos. A conversation at once began in relation to the frauds in singly and by twos. A conversation at once began in relation to the irauds which have been in relation to the irauds which have been in relation to the irauds which have been charged upon the Canai Ring and the general attitude of Governor Tiden in the war apon peculation. The great majority of the members nearthy indorsed the action of the Governor, and prophesied that the democratic parry would at a very early day free treelf from political peculators of all sorts. At four o'clock Mr. John Kelly called the meeting to order, there being some forty members in attendance. Mr. Joseph Donohue nanded to the Sachem the resignations of Messrs. Within Hiodard and Heary flughes, members of the General Committee for the two-tient Assembly District. These letters of resignation were accepted without discussion, they having been tendered pursuant to an understanding that they should be seat in. The name of charges J. Winheld was then proposed as the successor to Mr. Ribbard, and Mi. James Gallaggher was nominated to succeed Mr. Hughes. The motion to place the names of Messrs. Winfleid and Gallagher upon, the list of members of the General Committee for the Twentieth Assembly District, was then put and carried unanimously. At this point it was moved that the meeting be adjourned and the session came to a close, saving lasted precisely thirty minutes. It was rumored that matters of the consideration of the committee, but were deterred owing to the ilimited attendance. Members of the committee continued to arrive long after the nail was empty, and stood about the doorstep gossipping; but those who were "on time" in their attendance had "olded their tents, like the Arabs," and the brethrea who are always is te will gain from the iterature their first knowledge of what occurred at the secret session yesterday.
